*Kiss me beneath the mistletoe  
Come press your lips to mine  
You've been a good girl all year long  
Let's both be bad tonight  
Don't you want to go down this road?  
See where a kiss may lead?  
Head over heels? Perhaps. Who knows?  
Let's start with a kiss under the mistletoe*

The end of a year  
I'm drinkin' and singin' with people from work  
She's standing so near  
Her perfume is drawing me in  
Her breath so warm on my skin  
She presses close to me whisp'ring...

*Kiss me beneath the mistletoe  
Come press your lips to mine  
I've been a good girl all year long  
Let's both be bad tonight  
Don't you want to go down this road?  
See where a kiss may lead?  
Head over heels? Perhaps. Who knows?  
Let's start with a kiss under the mistletoe*

I leave her unkissed  
Make some excuse and go home to my wife  
My true christmas gift  
I find her unwrapping herself  
Mistletoe on her belt  
She presses close to me whisp'ring...
