You know what we really need"

Jesus in the basement gives away his last cigarette
To the girl with no teeth who's been clean for three weeks
While up in the basement Joseph confesses he slept
With a guy for some coke but he still ends with a joke
About a nun that had some point that I forget
I feel the fear and panic slowly coiling round my chest
When the prodigal son makes it home
Can he live with himself and the damage he's done?
